NORTHWESTERN MICHIGAN

- Salary information from O*net

Danielle's advice for getting into Ed Tech:

**You need to know what teachers deal with on a daily basis.
You have to be aware of what students like.
Understand the difference between technology and EDUCATIONAL technology.
Be willing to play and learn about different things that are out there– software, hardware, devices, and what they all do. It's absolutely okay to think differently and be creative in your approach to implementing technology!**
