

Welcome All! – Graduation 2021

Danielle Mayer – Manistee Lab

I am proud to be sharing with you my experience in being able to say I have finally graduated. It has taken me 17 years to accomplish but I finally did it. All while raising kids, working full time and being a wife. It is something I never thought I would be able to achieve, but thanks to my amazing family helping keep me focused here I am. I am so humbled and proud of myself.

I am unbelievably happy that I can now further my education and go on to have a better career. It just goes to show that it's never too late to try to better yourself and your life if it's something you truly believe in.

My family has been my driving force. They have believed in me and helped me believe in myself. I am truly honored to be able to be sharing this. I want to thank my teacher Maryann for pushing me to keep going and believing that I could do it, my husband for always having my back and supporting me in every choice I make, and my kids for giving me a reason to push forward.
